

Facilitative Leadership

OVERVIEW

Facilitative leadership enables better involvement and enhanced contributions of all team members. Facilitative leaders learn to employ adult learning principles to better persuade, coach and teach new skills and to explore new ideas and group problem solving. They utilize meeting and group dynamic management techniques that increase engagement and produce better outcomes. Facilitative leaders understand how adults learn and how they get behind new initiatives.

Creating powerful presentations and effective meetings is dependent on the leaders' ability to plan, prepare and present. A learner centred approach is utilized so that all of the objectives of the training, presentation or meetings are achieved.

LEARNING OBJECTIVES

Participants who complete this workshop will:

- Understand what motivates adults to learn
- Be able to manage more effective meetings and increase the level of engagement of meeting participants
- Understand individual learning styles
- Know how to prepare for meetings and presentations for maximum effectiveness
- Present ideas concisely

COURSE OUTLINE

- Adult learning Principles
- Group Dynamics
- Learning Styles
- Learner Centered Approach
- Meeting Management
- Barriers to Learning
- Planning to Present
- Understanding and Reading Your Audience
- Measuring Meeting Performance
